Public Notices

Rockville 2024 Drinking Water Report

This report contains important information about your drinking water. Have someone translate it for you, or speak with someone who understands it.

Información importante. Si no la entiende, haga que alguien se la traduzca ahora.

Making Safe Drinking Water

Your drinking water comes from a groundwater source: four wells ranging from 42 to 93 feet deep, that draw water from the Quaternary Buried Artesian aquifer.

Rockville works hard to provide you with safe and reliable drinking water that meets federal and state water quality requirements. The purpose of this report is to provide you with information on your drinking water and how to protect our precious water resources.

Contact Tom Valerius, Water Supervisor, at (320) 224-8171 or water.sewer@rockvillecity.org if you have questions about Rockville's drinking water. You can also ask for information about how you can take part in decisions that may affect water quality.

The U.S. Environmental Protection Agency sets safe drinking water standards. These standards limit the amounts of specific contaminants allowed in drinking water. This ensures that tap water is safe to drink for most people. The U.S. Food and Drug Administration regulates the amount of certain contaminants in bottled water. Bottled water must provide the same public health protection as public tap water.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

Rockville Monitoring Results

This report contains our monitoring results from January 1 to December 31, 2024.

We work with the Minnesota Department of Health to test drinking water for more than 100 contaminants. It is not unusual to detect contaminants in small amounts. No water supply is ever completely free of contaminants. Drinking water standards protect Minnesotans from substances that may be harmful to their health.

Learn more by visiting the Minnesota Department of Health's webpage Basics of Monitoring and testing of Drinking Water in Minnesota

(https://www.health.state.mn.us/communities/environment/water/factsheet/sampling.html).

How to Read the Water Quality Data Tables

The tables below show the contaminants we found last year or the most recent time we sampled for that contaminant. They also show the levels of those contaminants and the Environmental Protection Agency's limits. Substances that we tested for but did not find are not included in the tables.

We sample for some contaminants less than once a year because their levels in water are not expected to change from year to year. If we found any of these contaminants the last time we sampled for them, we included them in the tables below with the detection date.

We may have done additional monitoring for contaminants that are not included in the Safe Drinking Water Act. To request a copy of these results, call the Minnesota Department of Health at $651\mathchar`-201\mathchar`-4700$ between $8\mathchar`-000$ a.m. and $4\mathchar`-000$ 00 p.m., Monday through Friday.

Some contaminants are monitored regularly throughout the year, and rolling (or moving) annual averages are used to manage compliance. Because of this averaging, there are times where the Range of Detected Test Results for the calendar year is lower than the Highest Average or Highest Single Test Result, because it occurred in the previous calendar year.

Definitions

- AL (Action Level): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
- water system must follow.

 EPA: Environmental Protection Agency
- MCL (Maximum contaminant level): The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
 MCLG (Maximum contaminant level goal): The level of a con-
- taminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- MRDL (Maximumn residual disinfectant level): The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
- MRDLG (Maximum residual disinfectant level goal): The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
- NA (Not applicable): Does not apply.
- ppt (parts per trillion): One part per trillion is like one drop in one trillion drops of water, or about one drop in an Olympic sized swimming pool. ppt is the same as nanograms per liter (ng/l).
- ppb (parts per billion): One part per billion in water is like one drop in one billion drops of water, or about one drop in a swimming pool. ppb is the same as micrograms per liter (μg/l).
- ppm (parts per million): One part per million is like one drop in one million drops of water, or about one cup in a swimming pool. ppm is the same as milligrams per liter (mg/l).
- **PWSID:** Public water system identification.

Monitoring Results – Regulated Substances LEAD AND COPPER – Tested at customer taps.

Contaminant (Date, if sampled in previous year)	EPA's Ideal Goal (MCLG)	EPA's Action Level	90% of Results Were Less Than	Number of Homes with High Levels	Range of Detected Test Results	Violation	Typical Sources
Lead (09/01/23)	0 ppb	90% of homes less than 15 ppb	<2 ppb	1 out of 10	0 - 31 ppb	NO	Corrosion of household plumbing
Copper (09/01/23)	0 ppm	90% of homes less than 1.3 ppm	0.48 ppm	0 out of 10	0.02 - 0.54 ppm	NO	Corrosion of household plumbing

NORGANIC & ORGANIC CONTAMINANTS – Tested in drinking water.							
Contaminant (Date, if sampled in previous year)	EPA's Ideal Goal (MCLG)	EPA's Limit (MCL)	Highest Average or Highest Single Test Result	Range of Detected Test Results	Violation	Typical Sources	
Nitrate	10 ppm	10 ppm	0.74 ppm	0.00 - 0.74 ppm	NO	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.	
Barium	2 ppm	2 ppm	0.17 ppm	N/A	NO	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposit.	

Substance (Date, if sampled in previous year) Substance (Date, if sampled in previous year) Substance (Date, if Goal (MCLG or MRDLG) Or MRDLG) MRDLJ Highest Average or Highest Obetected Single Test Single Test Test Results							
Total Trihalomethanes (TTHMs)	N/A	80 ppb	Result 4 ppb	N/A	NO	By-product of drinking water disinfection.	
Total Haloacetic Acids (HAA)	N/A	60 ppb	1.9 ppb	N/A	NO	By-product of drinking water disinfection.	
Total Chlorine	4.0 ppm	4.0 ppm	1.12 ppm	0.69 - 1.23 ppm	NO	Water additive used to control microbes.	

Total HAA refers to HAA5

OTHER SUBSTANCES – Tested in drinking water.							
Substance (Date, if sampled in previous year)	EPA's Ideal Goal (MCLG)	EPA's Limit (MCL)	Highest Average or Highest Single Test Result	Range of Detected Test Results	Violation	Typical Sources	
Fluoride	4.0 ppm	4.0 ppm	0.64 ppm	0.57 - 0.59 ppm	NO	Erosion of natural deposits; Water additive to promote strong teeth.	

Potential Health Effects and Corrective Actions (If Applicable)

Fluoride: If your drinking water fluoride levels are below the optimal concentration range of 0.5 to 0.9 ppm, please talk with your dentist about how you can protect your teeth and your family's teeth from tooth decay and cavities. For more information, visit: MDH Drinking Water Fluoridation (https://www.health.state.mn.us/communities/environment/water/com/fluoride.html). Fluoride is nature's cavity fighter, with small amounts present naturally in many drinking water sources. There is an overwhelming weight of credible, peer-reviewed, scientific evidence that fluoridation reduces tooth decay and cavities in children and adults, even when there is availability of fluoride from other sources, such as fluoride toothpaste and mouth rinses. Since studies show that optimal fluoride levels in drinking water benefit public health, municipal community water systems adjust the level of fluoride in the water to an optimal concentration between 0.5 to 0.9 parts per million (ppm) to protect your teeth. Fluoride levels below 2.0 ppm are not expected to increase the risk of a cosmetic condition known as enamel fluorosis.

Monitoring Results - Unregulated Substances/Emerging Contaminants

In addition to testing drinking water for contaminants regulated under the Safe Drinking Water Act, we sometimes also monitor for contaminants that are not regulated. Unregulated contaminants do not have legal limits for drinking water. MDH, EPA, and other health agencies may have developed comparison values for some of these compounds. Some of these comparison values are based solely on potential health impacts and do not consider our ability to measure contaminants at very low concentrations nor the cost and technology of prevention and/or treatment. These values may be set at levels that are costly, challenging, or impractical for a water system to meet (for example, large-scale treatment technology may not exist for a given contaminant). Sample data are listed along with comparison values in the table below; it is important to note that these comparison values are not enforceable.

Detection alone of a regulated or unregulated contaminant should not cause concern. The significance of a detection should be determined considering current health effects information. We are often still learning about the health effects, so this information can change over time.

A person drinking water with a contaminant at or below the comparison value would be at little to no risk for harmful health effects. If the level of a contaminant is above the comparison value, people of a certain age or with special health conditions-like a fetus, infants, children, elderly, and people with impaired immunity—may need to take extra precautions. We are notifying you of the unregulated/emerging contaminants we have detected as a public education opportunity.

Unregulated contaminant monitoring helps EPA to determine where certain contaminants occur and whether the Agency should consider regulating those contaminants in the future.

- More information is available on MDH's A-Z List of Contaminants in Water (https://www.health.state.mn.us/communities/environment/water/contaminants/index.html)
- Fourth Unregulated Contaminant Monitoring Rule (UCMR 4) (https://www.health.state.mn.us/communities/environment/water/com/ucmr4.html)
- ment/water/com/ucmr4.html)
 Fifth Unregulated Contaminant Monitoring Rule
- (https://www.epa.gov/dwucmr/fifth-unregulated-contaminant-monitoring-rule)

 EPA has developed a UCMR5 Program Overview Fact-
- sheet (https://www.epa.gov/system/files/documents/2022-02/ucmr5-factsheet.pdf) describing UCMR 5 contaminants and standards.

 In the past year, your drinking water may have tested for additional unregulated contaminants as part of the Fifth Unregulated Contaminants.

In the past year, your drinking water may have tested for additional unregulated contaminants as part of the Fifth Unregulated Contaminant Monitoring Rule (https://www.epa.gov/dwucmr/fifth-unregulated-contaminant-monitoring-rule) and results are still being processed. The Unregulated Contaminant Monitoring Rule 5 (UCMR 5) Data finder allows people to easily search for, summarize, and download the available UCMR 5 analytical results (https://www.epa.gov/dwucmr/fifth-unregulated-contaminant-monitoring-rule-data-finder).

UNREGULATED/EMERGING CONTAMINANTS – Tested in drinking water.							
Contaminant	Comparison Value	Highest Average Result or Highest Single Test Result	Range of Detected Test Results				
Manganese (2021)	100 ppb	395 ppb	101.00 - 406.00 ppb				
Sodium*	20 ppm	21.4 ppm	12.30 - 21.40 ppm				
Sulfate	500 ppm	31.4 ppm	24.10 - 31.40 ppm				
Perfluorobutanoic acid (PFBA) (2021)	7000 ppt	2.8 ppt	0.00 - 2.80 ppt				

*Note that home water softening can increase the level of sodium in your water.

Some People Are More Vulnerable to Contaminants in Drinking Water

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. The developing fetus and therefore pregnant women may also be more vulnerable to contaminants in drinking water. These people or their caregivers should seek advice about drinking water from their health care providers. EPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline at 1-800-426-4791.

Learn More about Your Drinking Water

Drinking Water Sources

Groundwater supplies 75 percent of Minnesota's drinking water, and found in aquifers beneath the surface of the land. Surface water supplies 25 percent of Minnesota's drinking water, and is the water in lakes, rivers, and streams above the surface of the land.

Contaminants can get in drinking water sources from the natural environment and from people's daily activities. There are five main types of contaminants in drinking water sources.

- Microbial contaminants, such as viruses, bacteria, and parasites. Sources include sewage treatment plants, septic systems, agricultural livestock operations, pets, and wildlife.
 Inorganic contaminants include salts and metals from natural
- Inorganic contaminants include salts and metals from natural sources (e.g. rock and soil), oil and gas production, mining and farming operations, urban stormwater runoff, and wastewater discharges.
- Pesticides and herbicides are chemicals used to reduce or kill unwanted plants and pests. Sources include agriculture, urban stormwater runoff, and commercial and residential properties.
- Organic chemical contaminants include synthetic and volatile organic compounds. Sources include industrial processes and petroleum production, gas stations, urban stormwater runoff, and septic systems.
- Radioactive contaminants such as radium, thorium, and uranium isotopes come from natural sources (e.g. radon gas from soils and rock), mining operations, and oil and gas production.

The Minnesota Department of Health provides information about your drinking water source(s) in a source water assessment, including:

- How Rockville is protecting your drinking water source(s);
- Nearby threats to your drinking water sources;
 How easily water and pollution can move from the surface of the land into drinking water sources, based on natural geology and the

way wells are constructed.

Find your source water assessment at Source Water Assessments (https://www.health.state.mn.us/communities/environment/water/-

swp/swa) or call 651-201-4700 between 8:00 a.m. and 4:30 p.m.,

Monday through Friday. Lead in Drinking Water

Lead can cause serious health problems, babies, children under six years, and pregnant women are at the highest risk. You may be in contact with lead through paint, water, dust, soil, food, hobbies, or your job. There is no safe level of lead.

Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Our water system is responsible for proving high quality drinking water and removing lead pipes from service lines but cannot control the variety of materials used in plumbing components in your home. You can take responsibility by identifying and removing lead materials within your home plumbing and taking steps to reduce your family's risk.

Read below to learn how you can protect yourself from lead in drinking water.

- 1. Let the water run before drinking tap water flush your pipes for several minutes by running your tap. If you have a lead service line, you may need to let the water run longer. A service line is the underground pipe that brings water from the main water pipe under the street to your home.
- Activities such as taking a shower, doing laundry or dishes help keep water moving in your home system but are not a replacement for running the tap before you drink if it has not been used for a long period of time.
- The only way to know if lead has been reduced by letting it run is to check with a test. If letting the water run does not reduce lead, consider other options to reduce your exposure.
- 2. Know your service line materials by contacting your public water system, or you can search for your address online at the Minnesota Lead Inventory Tracking Tool (https://maps.umn.edu/LSL/).
- Protect Your Tap: A quick check for lead (https://www.epa.gov/ground-water-and-drinking-water/protect-your-tap-quick-check-lead) is EPA's step by step guide to learn how to find lead pipes in your home.
- 3. Use cold water. for drinking, making food, and making baby formula. Hot water releases more lead from pipes than cold water.
- 4. **Test your water.** In most cases, letting the water run and using cold water for drinking and cooking should keep lead levels low in your drinking water. If you are still concerned about lead, arrange with a laboratory to test your tap water. Testing your water is important if young children or pregnant women drink your tap water.
- Contact a Minnesota Department of Health accredited laboratory to purchase a sample container and instructions on how to submit a sample:
- Environmental Laboratory Accreditation Program (https://eldo.web.health.state.mn.us/public/accreditedlabs/labsearch.seam)

The Minnesota Department of Health can help you understand your test results.

- 5. **Treat your water** if a test shows your water has high levels of lead after you let the water run. You can use a filter certified with ANSI/NSF standards 53 and 42 for lead reduction.
- Read about water treatment units:
 Point-of-Use Water Treatment Units for Lead Reduction
 (https://www.health.state.mn.us/communities/environment/water/factsheet/poulead.html)

Information on lead in drinking water, testing methods, and other steps you can take to minimize exposure are available at:

• Visit EPA Basic Information about Lead in Drinking Water

- Visit EPA Basic Information about Lead in Drinking Water (http://www.epa.gov/safewater/lead)
- Visit the Minnesota department of Health Lead in Drinking Water (https://www.health.state.mn.us/communities/environ-
- water (https://www.neaith.state.mn.us/communities/environment/water/contaminants/lead.html)

 • To learn about how to reduce your contact with lead from
- sources other than your drinking water, visit Lead Poisoning Prevention: Common Sources (https://www.health.state.mn.us/communities/environment/lead/fs/common.html) 6. Be Aware: Head Start Programs, Child Care Centers, Public
- and Charter Schools all have requirements to test for lead in drinking water. These programs can learn more about requirements and resources for testing and remediation at MDH Drinking Water in Schools and Child Cares (https://www.web.health.state.mn.us/communities/environment/water/schools/index.html)

Service Line Material Inventory

Rockville has completed and submitted our service line materials inventory to the Minnesota Department of Health. The service line inventory is publicly available, and you can check the materials for your service line by visiting the Lead Inventory Tracking Tool (LITT) (https://maps.umn.edu/LSL/). You may also contact us at <Insert Contact Information>. To complete the service line inventory, our system <insert a general description of how the system determined the status of service lines>. As of 10/07/2024, our inventory contains 0 lead, 7 galvanized requiring replacement, 135 unknown material, and 167 non-lead service lines.

STATE OF MINNESOTA COUNTY OF STEARNS

DISTRICT COURT 7th JUDICIAL DISTRICT Court File No.: 73-FA-24-9176 **Case Type: Custody**

Summons To Establish Custody And Parenting Time

In Re the Custody of:

Yara Schreoder Born: 03/11/2023

John Thompson, Jr. Petitioner

and

Miranda Schreoder Respondent

TO THE ABOVE-NAMED RESPONDENT:

THIS SUMMONS IS AN OFFICIAL DOCUMENT THAT AFFECTS YOUR RIGHTS. A copy of the paperwork regarding the lawsuit is served on you with this summons. Read this summons and attached petition carefully. If you do not understand it, contact an attorney for legal advice.

1. The Petitioner has filed a lawsuit asking the Court to decide custody and parenting time of the minor child(ren) listed above in the caption.

Petitioner is requesting the court to establish child sup-

2. You must serve upon Pe-

titioner and file with the Court a written Answer to the Petition. If Petitioner is requesting child support, you must file a Financial Affidavit along with your Answer. You must pay the required filing fee. If you cannot afford to pay the filing fee, you may qualify to have the filing fee waived by the court. You must file an In Forma Pauperis application with the court and a judge will decide whether you must pay the fee. All court forms are available from the Court Administrator's office and on the Court's website at www.mncourts.gov/forms. You must serve your Answer and Finanwithin 21 days of the date AND ARE ABANDONED. you were served with this Summons, not counting the day of service. If you do not serve and file your Answer and Financial Affidavit, the court may grant Petitioner everything he or she is asking for in the attached Petition.

NOTICE OF PARENT **EDUCATION PROGRAM** REQUIREMENTS

Parenting education may be required in all custody or parenting proceedings. You may contact court administration for additional information regarding this requirement and the availability of parent education programs.

Dated: November 6, 2024

(Pub. Apr. 1 - 15, 2025)

NOTICE OF MORTGAGE FORECLOSURE SALE

Date: March 27, 2025

YOU ARE NOTIFIED THAT:

1. Default has occurred in the conditions of the Mortgage dated November 28, 2022, executed by Nathan R. Becker, a single person, as Mortgagor, to Liberty Bank Minnesota, as Mortgagee, and filed for record December 21, 2022, as Document No. A1646427, in the Office of the County Recorder of Stearns County, Minnesota. The land described in the Mortgage is not registered land.

- 2. The Mortgage has not been assigned.
- 3. The original principal amount secured by the Mortgage was \$145,403.00.
- 4. No action or proceeding at law is now pending to recover the debt secured by the Mortgage, or any part thereof.
- 5. The holder of the Mortgage has complied with all conditions precedent to acceleration of the debt secured by the Mortgage and foreclosure of the Mortgage, and all notice and other requirements of applicable statutes.

6. At the date of this Notice the amount due on the Mortgage, and taxes, if any, paid by the holder of the Mortgage is \$150,093.99.

7. Pursuant to the power of sale in the Mortgage, the Mortgage will be foreclosed, and the land located in Stearns County, Minnesota, described as fol-

Lot 5 and 6, less and except the Westerly 100 ft thereof; and all of Lot 3 and 4, Block 2, Normal Park Addition to St. Cloud, Stearns County, Min-

will be sold by the County Sheriff of Stearns County, Minnesota, at public auction on May 20, 2025, at 10:00 a.m., at the Stearns County Sheriff's Department, located at 807 Courthouse Square, St. Cloud, Minnesota.

8. To the best of Mortgagee's information, the property being foreclosed has a property address of 1123 Ninth Avenue South, St. Cloud, Minnesota 56301, and has tax parcel identification number 82.48813.0000.

9. The time allowed by law for redemption by Mortgagor or Mortgagor's personal representatives or assigns is six (6) months after the date of sale.

10. The property must be vacated by 11:59 p.m. on November 20, 2025, provided the Mortgagor has not reinstated the Mortgage under Minnesota Statutes, Section 580.30 or redeemed the property under Minnesota Statutes, Section 580.23. If the foregoing date is a Saturday, Sunday or legal holiday, then the date to vacate is the next business day at 11:59 p.m.

11. THE TIME ALLOWED BY LAW FOR REDEMPTION BY THE MORTGAGOR, THE MORTGAGOR'S PERSONAL REPRESENTATIVES OR AS-SIGNS, MAY BE REDUCED TO FIVE WEEKS IF A JUDI-CIAL ORDER IS ENTERED UNDER MINNESOTA STATUTES. SECTION 582.032, DETERMINING. AMONG OTHER THINGS, THAT THE MORTGAGED PREMISES ARE IMPROVED WITH A RESIDENTIAL DWELLING OF LESS THAN FIVE UNITS, ARE NOT PROPERTY USED IN AGRIcial Affidavit upon Petitioner CULTURAL PRODUCTION,

> THE PURPOSE OF THIS COMMUNICATION IS TO COLLECT A DEBT AND ANY INFORMATION OB-TAINED WILL BE USED FOR THAT PURPOSE.

DISTRICT COURT 7TH JUDICIAL DISTRICT Court File No.: 73-PR-25-2496 Case Type: **Informal Probate**

Notice of Informal Appointment of Personal Representative and Notice to Creditors (Without a Will)

In re the Estate of

Sherrie Marie Euteneuer, Deceased

TO ALL INTERESTED PERSONS AND CREDI-TORS:

Notice is hereby given that an application for informal appointment of personal representative has been filed with the Probate Registrar. No will has been presented for probate. The application has been

granted. Notice is also given that the Probate Registrar has informally appointed Gerald A. Euteneuer, whose address is 20650 212th Ave., Big Lake, MN 55309, as Personal Representative of the Estate of the other interested person may be entitled to appointment as Personal Representative, or may object to the appointment of the Personal Representative. Unless objections are filed pursuant to Minn. Stat. § 524.3-607, and the court otherwise orders, the Personal Representative has full power to administer the Estate, including, after 30 days from the date of issuance of letters, the power to sell, encumber, lease or distribute real estate.

Notice is also given that, subject to Minn. Stat. § 524.3-801, all creditors having claims against the Estate are required to present the claims to the Personal Representative or to the Court Administrator within four (4) months after the date of this Notice, or the claims will be barred.

NOTICE OF **CANCELLATION OF** CONTRACT FOR DEED

YOU ARE NOTIFIED:

1. Default has occurred in the Contract for Deed ("Contract") dated February 19, 2015 and recorded on February 19, 2015, as Document Number A1437916, in the Office of the County Recorder of Stearns County, Minnesota, in which Floyd Ballinger as seller, sold to Maxine Jeanette Haymon and Carl Arie Adams as purchaser, the real property in Stearns County, Minnesota, described as follows:

Lot Numbered One (1) and the West Eight (8) feet of Lot Numbered Two (2), in Block Numbered One (1), in Robertson's Addition to the City of St. Cloud according to the plat and survey thereof, on file and of record in the office of the Register of Deeds, in and for Stearns County, Minnesota.

2. The default is as follows: Failure to pay the monthly payments of \$714.81 due each month on the first of the month from SEPTEMBER 1, 2022 through March 1, 2025 and property Taxes from 2022-2024 for a total owed of \$20,949.39

3. The conditions contained in Minn. Stat. 559.209 have been complied with or are not applicable.

4. THIS NOTICE IS TO IN-FORM YOU THAT BY THIS NOTICE THE SELLER HAS BEGUN PROCEEDINGS UN-DER MINNESOTA STATUTES, SECTION 559.21, TO TERMINATE YOUR CON-TRACT FOR THE PUR-CHASE OF YOUR PROPER-TY FOR THE REASONS SPECIFIED IN THIS NO-TICE. THE CONTRACT WILL TERMINATE 90 DAYS AF-TER THE FIRST DATE OF PUBLICATION OF THIS NO-TICE UNLESS BEFORE THEN:

(a.) THE PERSON AU-THORIZED IN THIS NOTICE TO RECEIVE PAYMENTS RECEIVES FROM YOU:

(1.) THE AMOUNT THIS NOTICE SAYS YOU OWE; PLUS

(2.) THE COSTS OF SERV-ICE (TO BE SENT TO YOU); **PLUS**

(3.) \$500 TO APPLY TO ATTORNEYS' FEES ACTU-ALLY EXPENDED OR IN-CURRED; PLUS

(4.) FOR CONTRACTS EX-ECUTED ON OR AFTER MAY 1, 1980, ANY ADDITIONAL PAYMENTS BECOMING DUE UNDER THE CON-TRACT TO THE SELLER AF-TER THIS NOTICE WAS SERVED ON YOU; PLUS

(5.) FOR CONTRACTS OTHER THAN EARNEST MONEY CONTRACTS, PUR-CHASE AGREEMENTS, AND EXERCISED OPTIONS, EXE CUTED ON OR AFTER AU-GUST 1, 1985, \$418.99 (WHICH IS TWO PERCENT OF THE AMOUNT IN DE-FAULT AT THE TIME OF SERVICE OTHER THAN THE FINAL BALLOON PAYMENT, ANY TAXES, ASSESS-

PRIOR CONTRACTS THAT ARE ASSUMED BY YOU); OR

(b.) YOU SECURE FROM A COUNTY OR DISTRICT COURT AN ORDER THAT THE TERMINATION OF THE CONTRACT BE SUSPENDED UNTIL YOUR CLAIMS OR DEFENSES ARE FINALLY DISPOSED OF BY TRIAL, HEARING OR SETTLE-MENT. YOUR ACTION MUST SPECIFICALLY STATE FACTS THOSE ANDGROUNDS THAT DEMON-STRATE YOUR CLAIMS OR DEFENSES.

IF YOU DO NOT DO ONE OR THE OTHER OF THE ABOVE THINGS WITHIN THE TIME PERIOD SPECI-FIED IN THIS NOTICE, YOUR CONTRACT WILL TERMINATE AT THE END OF THE PERIOD AND YOU WILL LOSE ALL THE MON-EY YOU HAVE PAID ON THE CONTRACT; YOU WILL LOSE YOUR RIGHT TO POS-SESSION OF THE PROPER-TY; YOU MAY LOSE YOUR RIGHT TO ASSERT ANY CLAIMS OR DEFENSES THAT YOU MIGHT HAVE; AND YOU WILL BE EVICT-ED. IF YOU HAVE ANY QUESTIONS ABOUT THIS NOTICE, CONTACT AN AT-TORNEY IMMEDIATELY.

5. The name, mailing address, street address or location and telephone number of the seller or of an attorney authorized by the seller to accept payments pursuant to this notice is:

William Moriarty Jeddeloh, Snyder and Stommes

803 W St. Germain St. St. Cloud, MN 56301 (320) 240-9423

This person is authorized to receive the payments from you under this notice

/S/ William Moriarty

COUNTY OF STEARNS DISTRICT COURT In re the Estate of 7TH JUDICIAL DISTRICT PROBATE DIVISION

COURT FILE NO.:

73-PR-25-2024

ORDER AND NOTICE OF **HEARING ON PETITION** FOR FORMAL PROBATE FORMAL APPOINTMENT OF PERSONAL REPRE-SENTATIVE IN UNSUPER-VISED ADMINISTRATION AND NOTICE

TO CREDITORS In Re: Estate of

Stephen J. Mechavich,

Deceased.

TO ALL INTERESTED PERSONS AND CREDITORS: IT IS ORDERED AND NO-TICE IS HEREBY GIVEN that on the 16th day of May, 2025, at 8:45 o'clock a.m., a hearing will be held in the above named Court at 725 Courthouse Square, St. Cloud, Minnesota, for the formal probate of an instrument purporting to be the Will of the above-named Decedent, dated September 4, 2018, and for the appointment of Robert A. Landwehr, whose address is 302 Ninth Street NE, Sartell, Minnesota 56377, and Timothy J. Meyer, whose

Personal Representatives of the estate of the Decedent in unsupervised administration, and that any objections thereto must be filed with the Court. That, if proper, and no objections are filed, a personal representative will be appointed to administer the estate, to collect all assets, pay all legal debts, claims, taxes and expenses, and sell real and personal property, and do all necessary acts for the estate.

Notice is further given that ALL CREDITORS having claims against said estate are required to present the same to said personal representative or to the Court Administrator of the Court within four months after the date of this notice or said claims will be barred.

This hearing will be held administrative and you will not need to appear unless objections are filed.

In Re: Estate of

Patricia A. Jansky,

Deceased.

NOTICE OF AND ORDER FOR HEARING ON PETITION FOR DETERMI-NATION OF DESCENT

Travess Jansky, has filed a Petition for Determination of Descent. It is Ordered that on May 9, 2025, at 8:45 a.m., a hearing will be held via Zoom by this Court at 725 Courthouse Square, St. Cloud, Minnesota, on the petition.

The petition represents that Decedent died more than three (3) years ago leaving property in Minnesota. The petition requests the Court determine the descent of such property and assign the property to the persons entitled.

Any objections to the petition must be raised at the hearing or filed with the Court prior to the hearing. If the petition is proper and no objections are filed or raised, the petition will be granted. The hearing will be held administratively and no appearances are required unless objections are filed. Notice shall be given by oublishing this Notice and Order as provided by law and by mailing a copy of this Notice and Order to each interested person by United States mail at least 14 days before the time set for the hearing.

DISTRICT COURT 7TH JUDICIAL DISTRICT Case Type: Contract Court File No.: 73-CV-25-2570

SUMMONS

Kensington Bank,

Plaintiff,

United States Axe LLC and Nicole A. Knight,

Defendants.

THIS SUMMONS IS DIRECT-ED TO THE ABOVE-NAMED DEFENDANTS.

1. YOU ARE BEING SUED. The Plaintiff has started a lawsuit against you. The Plaintiff's Complaint against you is attached to this summons. Do not throw these papers away. They are official papers that affect your rights. You must respond to this lawsuit even though it may not yet be filed with the Court and there may be no court file number on this summons.

2. YOU MUST REPLY WITHIN 21 DAYS TO PRO-TECT YOUR RIGHTS. You must give or mail to the person who signed this Summons a written response called an Answer within 21 days of the date on which you received this Summons. You must send a copy of your Answer to the person who signed this summons located at: Sapientia Law Group, PLLC, 200 3rd Avenue NE, Suite 300, Cambridge, MN

3. YOU MUST RESPOND TO EACH CLAIM. The Answer is your written response to the Plaintiff's Complaint. In your Answer you must state whether you agree or disagree with each paragraph of the Complaint. If you believe the Plaintiff should not be given everything asked for in the Complaint, you must say so in vour Answer.

4. YOU WILL LOSE YOUR CASE IF YOU DO NOT SEND A WRITTEN RE-SPONSE TO THE COM-PLAINT TO THE PERSON WHO SIGNED THIS SUM-MONS. If you do not Answer within 21 days, you will lose this case. You will not get to tell your side of the story, and the Court may decide against you and award the Plaintiff everything asked for in the complaint. If you do not want to contest the claims stated in the complaint, you do not need to respond. A default judgment can then be entered against you for the relief requested in the complaint.

5. LEGAL ASSISTANCE. You may wish to get legal help from a lawyer. If you do not have a lawyer, the Court Administrator may have information about places where you can get legal assistance. Even if you cannot get legal help,

you must still provide a written Answer to protect your rights or you may lose the case.

6. ALTERNATIVE DIS-PUTE RESOLUTION. The parties may agree to or be ordered to participate in an alternative dispute resolution process under Rule 114 of the Minnesota General Rules of Practice. You must still send your written response to the Complaint even if you expect to use alternative means of resolving this dispute.

Dated this 13th day of February, 2025.

AMENDING STEARNS COUNTY ORDINANCE **NUMBER 439**

THE COUNTY BOARD OF STEARNS COUNTY OR-**DAINS:**

Section 1.0 That the following definitions are hereby amended in Section 3 of Stearns County Ordinance Number 439 as follows:

Bluff

A topographic feature such as a hill, cliff or embankment having the following character-

A. Part or all of the feature is located in a shoreland area;

B. The slope rises at least twenty-five (25) feet above the ordinary high water level of the water body;

C. The grade of continuous fifty (50) foot horizontal transects from the toe of the bluff ing, soil erosion, water polluto the top of the bluff is at least tion or property damage or eighteen percent (18%). At significantly impact a lake, least one fifty (50) foot transect stream or wetland. is thirty percent (30%) or greater. Fifty (50) foot transects with less than an eighteen percent (18%) slope shall not be considered part of the bluff except when determining the toe and top of bluff. Fifty (50) foot transects located more than fifty (50) feet from a transect with thirty percent (30%) or greater slope, shall not be considered part of the bluff.

D. The slope must drain toward the water body.

Bluff, Toe of

The toe of the bluff shall be determined to be the lower end of the lowest fifty (50) foot horizontal transect with a slope of eighteen (18%) in a bluff.

Bluff, Top of

The top of the bluff shall be determined to be the upper end of the highest fifty (50) foot horizontal transect with a slop of eighteen (18%) percent in a

Patio (Deleted)

An open recreation area that is often paved and within one foot of pre-existing or natural grade.

That Section 6.2.1G of Stearns County Ordinance #439 is hereby amended as fol-

Section 2.0 That Section nance #439 is hereby amended

6.2.1G Accessory Buildings-Residential

No residential accessory building shall be located closer than ten (10) feet to the principal residential building on the lot, including decks.

Section 3.0 That Section 7.22.1(E) of Stearns County Ordinance Number 439 is hereby amended as follows:

7.22.1(E) Recreational Camping Vehicle, Permanent

The provisions of this Section do not apply to homeowners who are storing a Recreational Camping Vehicle on their property provided said vehicle is licensed in their name

Section 4.0. That Section 7.26 of Stearns County Ordinance Number 439, as presently enacted, is hereby repealed.

Section 5.0. That the following is hereby enacted as Section 7.26 of Stearns County Ordinance Number 439.

7.26 Stormwater Management

The purpose of this Section is to reduce pollutant levels in source discharges and protect water quality of Stearns County water resources using best management practices (BMPs) and stormwater treatment facilities.

7.26.1 Applicability:

A stormwater pollution prevention plan (SWPPP) shall be required for, and all stormwater provisions shall apply to, any of the following activities within the unincorporated areas of Stearns County located outside of a public road right-

A. Any development activity that results in the cumulative addition of one (1) acre or greater of new impervious surface to the site not covered by Minnesota Rules Chapter 7020.

B. Any new resort and/or planned unit development in accordance with Section 10.2.23 B of this Ordinance.

C. Redevelopment of any parcel that exceeds lot coverage limits.

D. The replacement of structures within existing resorts in accordance with Section 10.2.23 C of this Ordi-

E. Expansions to existing resorts in accordance with Section 10.2.23 D of this Ordi-

F. Any other land development activity including, but not limited to, redevelopment or alteration of existing buildings and other structures that the Director determines may significantly increase downstream runoff volumes, flood-

7.26.2 General Standards Development activities requiring the submittal of a SW-PPP shall conform to the following standards:

A. Developments shall use BMPspermanent and stormwater treatment facilities to treat stormwater runoff generated by new or redeveloped impervious surfaces.

B. BMPs and permanent stormwater treatment facilities selected shall be suitable for the site conditions, comply with manufacturer's specifications, and be consistent with the Minnesota Stormwater Manual.

C. The applicant shall be responsible for the design, construction, and maintenance of BMPs and/or permanent stormwater treatment facilities identified in the SWPPP.

D. No activity requiring a SWPPP shall occur until the plan has been reviewed and approved by the Department.

E. Redevelopment of impervious areas already being treated by an approved stormwater plan does not require a new SWPPP. A letter shall be submitted from a Certified SWPPP Designer certifying that the existing stormwater facilities are properly installed, functioning and maintained.

7.26.3 SWPPP Content

Applicants shall submit a SWPPP to the Department for approval. All required plans shall be drawn to an easily legible scale, shall be clearly labeled and shall be developed by a Certified SWPPP Designer. A SWPPP shall include the following information: A. A narrative describing

the installation timing of all

erosion prevention and sediment control BMPs, permanent stormwater treatment facilities and land disturbing

B. A site map shall be submitted and include:

(1) Property boundaries and easements.

(2) Public and private roads, structures and utilities. (3) Location and type of all temporary/permanent erosion

prevention and sediment con-

trol BMPs in addition to per-

manent stormwater treatment

(4) Existing and proposed

impervious surface areas. (5) Drainage area boundaries, directions of flow, and all discharge points stormwater leaves the site or enters a surface water. Include off-site contributing

runoff sources. (6) Drain tiles, ditches, or other water conveyance sys-

(7) All water features including lakes, ponds, streams, wetlands and off-site receiving waters. Show the ordinary high water level of all lakes, one hundred (100) year floodplain boundary and any delineated wetland boundaries.

(8) Existing vegetative cover and vegetation proposed for removal.

(9) Existing and proposed elevation contours shown at vertical intervals of not more than two (2) feet.

(10) Locations of all proposed land disturbing activities, soil stockpiles, and potential pollutant generating activities (11) Elevations and grades

for streets, ditches, stormwater treatment facilities, pipe inverts, and benchmarks. C. Calculations, design details and specifications for tem-

porary sediment basins and permanent stormwater treatment facilities. D. List the new impervious area proposed in each sub-watershed as shown on the drainage area boundary map. 10,000 square feet of impervi-

construction plan. E. Descriptions of the methods used to minimize soil compaction and preserve topsoil.

ous surface shall be assumed

for new lots without a detailed

F. An erosion and sediment control plan in accordance with Section 7.10 of this Ordinance including procedures used to establish additional temporary BMPs as necessary for the site conditions during construction. Details and specifications for

BMPs must be included. G. A landscape plan or written description of methods used to achieve temporary and final stabilization of all exposed soil areas, the type of stabilization and rate of appli-

H. A map showing the soil type boundaries, hydrologic soil group classification, and the estimated acreage of each soil type as referenced in the USDA/NRCS Web Soil Sur-

I. A work and materials list with quantity and cost estimates for all proposed site grading, stormwater treatment facilities, erosion prevention and sediment control BMPs.

J. If the SWPPP designer determines that compliance with any stormwater requirement in this ordinance is infeasible they must document the determination and supporting evidence in the SWPPP. The determination is subject to review and approval by the De-

partment. K. An operation and maintenance plan per Section 7.26.5 of this Ordinance.

L. Any additional information deemed necessary by the Director.

7.26.4Permanent Stormwater Treatment System Standards

A. SWPPPs created according to section 7.26.1A of this Ordinance shall meet all requirements of the current version of the Minnesota Construction Stormwater General Permit.

B. SWPPPs created according to section 7.26.1B of this Ordinance shall be designed to treat a water quality volume equal to one inch (1") of runoff

times the total area of impervious surface within the proposed resort.

C. SWPPPs created according to section 7.26.1C of this Ordinance shall be designed to treat a water quality volume equal to one inch (1") of runoff times the area of impervious surface exceeding the maximum lot coverage limit.

D. SWPPPs created according to section 7.26.1D, 7.26.1E, and 7.26.1F of this Ordinance shall be designed to treat a water quality volume equal to one inch (1") of runoff multiplied by the proposed area of new, replaced and redeveloped impervious surface.

E. Applicants must first consider infiltration as a vol-If infiltration is infeasible, applicants must consider treating the water quality volume using a filtration basin or wet sedimentation basin.

New constructed stormwater outfalls to any public water or wetland must provide for filtering or settling of suspended solids and skimming of surface debris before discharge.

G. Stormwater facilities shall be designed assuming that existing drains and drain tiles no longer function, unless either an easement is supplied for future maintenance, or the design demonstrates that the drain or tile has the capacity and service condition to make it a suitable component of the permanent stormwater treatment system.

H. Where there is discharge cility the applicant shall show and to be structurally sound. that the proposed activity will way element or negatively impact its safety, maintenance or function.

I. The SWPPP shall include provisions and practices to reduce the temperature of runoff maintenance. from sites that discharge to a designated trout stream.

J. Infiltration Standards

(1) Applicants must design infiltration facilities to discharge all stormwater routed to the facility through the uppermost soil surface or engineered media surface within 48 hours. Applicants must route additional flows that cannot infiltrate within 48 hours to bypass the facility through a years. stabilized discharge point.

at least one soil boring, test pit or infiltrometer test at/near the infiltration practice for determining infiltration rates. Rates are determined by dividing the field measured rate by 2 as a safety factor, or by using soil boring results with the infiltration rate chart found in the Minnesota Stormwater Manual.

a pretreatment device such as a filter strip, forebay, or grit chamber prior to the infiltration facility.

(4) Applicants must employ on site testing to ensure the bottom of the proposed infiltration facility is a minimum of three (3) feet above seasonally saturated soils or bedrock.

(5) Infiltration is prohibited within areas of predominantly hydrologic soil group D type soils as referenced in the USDA/NRCS Web Soil Sur-

K. Filtration Standards (1) Applicants must design

least eighty percent (80%) of total suspended solids.

a pretreatment device prior to the filtration facility

(3) The filtration facility design must discharge all stormwater routed to the facility through the uppermost soil surface or engineered media surface within 48 hours. Additional flows that the facility cannot filter within 48 hours must bypass the facility or discharge through an emergency overflow.

Miscellaneous For Rent

We pay top dollar for junk cars, trucks and late model repairables! **Call 320-236-7477**

(4) Applicants must ensure 7.29 of Stearns County Ordithat filtration facilities with less than three (3) feet of separation to seasonally saturated soils or bedrock are constructed with an impermeable liner.

L. Wet Sedimentation Stan-

(1) The basin design must have a permanent volume of 1800 cubic feet of storage below the outlet pipe for each acre that drains to the basin.

(2) The basin design must provide live storage for the water quality volume.

(3) Basin outlet designs must discharge the water quality volume at no more than 5.66 cubic feet per second per acre of surface area of the

(4) Basin outlet designs may not allow short-circuiting or discharge of floating debris and must be equipped with energy dissipation.

(5) Basins must have a stabilized emergency overflow to ume reduction practice on site. accommodate storm events in excess of the basin's hydraulic

design. (6) Designs shall include storage volumes, depth, outlet design, downstream stabilization, emergency spillways and basin profile/cross section.

7.26.5 Maintenance Stan-

A. All permanent stormwater treatment facilities shall be inspected and maintained in perpetuity. After implementation of the approved SWPPP, long term inspection and maintenance responsibilities may be transferred to a separate entity after official acceptance by a Township Board, a Watershed District Board, a legally organized homeowner's association or other entity approved by the Director.

B. Facilities shall be designed to minimize the need to an existing roadway, ditch, for maintenance, to provide acstorm sewer or other public fa- cess for maintenance purposes

C. An operations and mainnot degrade any critical road- tenance plan shall be submitted to the Department with the SWPPP and include:

(1) Name and contact information of the entity responsible for long term operation and

(2) Inspection and maintenance schedule.

(3) Inspection and maintenance checklists to be used and inspection protocols.

(4) Description of how inspections and maintenance activities will be funded.

D. All inspection and maintenance documents shall be kept by the responsible party for a minimum of ten (10)

E. It shall be the responsi-(2) Applicants must provide bility of the applicant to obtain any necessary easements to allow access to the stormwater treatment facilities for inspection and/or maintenance.

7.26.6 Financial Guaran-

Once a SWPPP is approved, a financial guarantee in the form of a letter of credit, cash deposit or bond in favor of the County equal to one hundred (3) Runoff must be routed to twenty-five (125) percent of site grading, stormwater management, and erosion/sediment control costs shall be submitted to the County. This guarantee is necessary to ensure the satisfactory installation. completion and maintenance of the measures required in the SWPPP.

A. Final plat approval or construction site permit approval shall not be granted until a financial guarantee has been submitted to the County.

B. Release of the financial guarantee is contingent on certification from a Certified SW-PPP Designer that the system filtration facilities to remove at is built and functions as designed, and a site visit by County staff verifies adequate (2) Runoff must be routed to installation of stormwater facilities, BMPs, and at least 70% uniform vegetative ground cover on areas to be stabilized with vegetation.

7.26.7 SWPPP Compli-

If an applicant does not implement the requirements of a SWPPP, the Director may issue an abatement order as outlined in Section 4.23 of this Or-

(Publish April 15, 2025)

STEARNS COUNTY **BOARD OF** COMMISSIONERS NOTICE OF INTENT TO ENACT AN

ORDINANCES Pursuant to Minnesota Statutes Chapter 375, notice is hereby given that the Stearns County Board of Commissioners intends to consider the enactment of the following Ordi-

Stearns County Ordinance Numbers 694 and 695 shall be considered for enactment at a meeting to be held on May 6, 2025 after 9:00am in the County Board Room, Stearns County Administration Center, 705 Courthouse Square, St. Cloud, Minnesota. The agenda will be available approximately 2 business days prior to the meeting on the Stearns County website on the Meetings on Demand page at https://stearnscounty.civicweb.net/Portal/ or by contacting Stearns County Environmental Services.

The general purpose and subject matter of Ordinance Number 694 is as follows:

It amends Ordinance Number 439 by rezoning approximately 74.73 acres from the Agricultural 40 (A-40) zoning district to the Residential 10 (R-10) zoning district. The property is part of the S1/2 SE1/4 and part of the SE1/4 SW1/4 in Section 28 and part of the NE1/4 NE1/4 in Section 33, lying between County Rd 75 and Franklin Rd, Lynden Township (123/27). The property address is 21044 County Rd 75. Clearwater MN.

The general purpose and Section 6.0. That Section subject matter of Ordinance at 10:00 AM, CT, Tuesday

Help Wanted

Horoscopes

ARIES - Mar 21/Apr 20

Expect some valuable insight regarding your future to emerge in the next few days, Aries. It won't be difficult to set plans in motion when you have the right people on your side.

TAURUS - Apr 21/May 21 Taurus, take a breather and give some careful thought to your recent experiences and your expectations going forward. You will benefit from this in the long run.

GEMINI - May 22/Jun 21 You are focused on your work, Gemini. However, distractions are beyond your control right now and will pull your attention away from what matters to higher-ups.

CANCER - Jun 22/Jul 22 Romantic endeavors are a little hard to plan and consider right now, Cancer. Just stick to what your intuition is telling you and you will come out just fine in the

end. LEO - Jul 23/Aug 23

Leo, you might be called upon to be a mediator for friends or loved ones who need a fresh set of eyes. Keep a cool demeanor and a level head and you can lead them to a resolution.

VIRGO - Aug 24/Sept 22

Virgo, you are drawn to creative projects, but avoid using them to put off other endeavors. These distractions will only delay the inevitable and then you'll be pressed for time.

Libra, carefully schedule

LIBRA - Sept 23/Oct 23

your time this week, as you cannot afford to get behind on your assignments at work or in school. You also have many important appointments on the calendar. SCORPIO - Oct 24/Nov 22 Scorpio, someone comes to you for advice this week and wants you to keep their situation private. You need to help them without betraying their request for confi-

SAGITTARIUS - Nov 23/Dec 21

dentiality.

It is possible your mind will wander this week, Sagittarius. You might not be able to focus on the tasks at hand, and will need to focus extra hard to limit distractions.

CAPRICORN - Dec 22/Jan 20

Capricorn, pay attention to detail in all things that you do. Be mindful of this when tending to professional and personal matters.

AQUARIUS - Jan 21/Feb

Aquarius, the simplest resolution is often the best one. Keep this mind when tackling a perplexing problem in the days ahead.

PISCES - Feb 19/Mar 20 Pisces, you are eager to sail through your to-do list, and certain tasks need to be postponed to address those that are high-priority. Rearrange things accordingly.

Rockville Lions Meeting

The meetings are generally on the 3rd Thursday of the month. We will meet at Stoney's in the garage. We would like to extend an invitation to any and all who would like to see what we're all about!

Rockville Remember...

How about some "ice fishing"? Here's a Rockville gal, Ruth Schwindel and her husband Earl Kaeter. A very popular afternoon past time!! The picture is labeled Guerney Lake; not Grand or Pleasant, or any of the River Lakes on the Chain, but ice fishing just the same!! Enjoy the memories, Tudie 252-3017! Almost forgot, the Birthday gal in last week's CSR Remember pic was Corryne Philipsek. She "hangs" out in Country Manor in Sartell now a days! Thanks for the responses; I enjoyed the visits!
