safe and that motorists must pay attention for and stop for crossing pedestrians at both marked and unmarked crosswalks, unless signals communicate otherwise.

Department of Public Safety offers these safety tips for pedestrians and motorists around schools and other high-traffic areas:

School children:

- When getting off a bus, look to be sure no cars are passing on the shoulder (side of the road).
- Before crossing the street, take five “giant steps” out from the front of the bus, or until the driver’s face can be seen.
- Wait for the driver to signal that it’s safe to cross.
- Look left-right-left when coming to the edge of the bus to make sure traffic is stopped. Keep watching traffic when crossing.

Pedestrians:

- Cross only at intersections or crosswalks.
- Obey all traffic signs and signals.
- Do not enter a crosswalk if a vehicle is too close or moving too fast to stop safely.
- Remember, the law requires pedestrians take responsibility for their own safety.

Motorists:

- Motorists must stop at least 20 feet from a school bus that is displaying red flashing lights or stop arm when approaching from the rear and from the opposite direction on undivided roads.
- Red flashing lights on buses indicates students are either entering or exiting the bus.
- Motorists are not required to stop for a bus if the bus is on the opposite side of a separated roadway, but they should remain alert for children.
- Watch for pedestrian traffic and prepare to stop if a pedestrian is approaching the intersection.
- Stop for pedestrians in crosswalks.
- Remember, the law applies to both intersections with marked and unmarked crosswalks.

So please, slow down, pay attention and be alert!

Recall! Cooluli Minifridges

About 250,000 units affected.

This recall involves 10-Liter and 15-Liter Cooluli minifridges with an internal power supply and two power input ports (AC and DC) on the back of the minifridge, instead of a single DC port. The removable power cord on the recalled minifridges does not have a “brick” power adapter (as is commonly used with laptop chargers). “Cooluli” is printed on the front of the minifridges. They were sold in a variety of colors including black, blue, green, white and red or with multicolored patterns, photos and logos. The recall includes batch numbers 1535 through 1545 and 1200000 through 1202080. The model (ITEM #:) and batch numbers are printed on a label on the inside of the minifridge door. The minifridges were sold in the Infinity, Classic, Glow Beauty and Vibe Series.

Consumers should stop using the recalled minifridges immediately and contact Cooluli for a free replacement power cord. Consumers will be asked to visit www.cooluli.com/pages/product-notices recalls to enter the model and batch numbers to determine whether their minifridge is included in the recall. Consumers who have recalled minifridges will be instructed to unplug the minifridge, cut the power cord and submit photos to Cooluli showing the model and batch numbers of the fridge. Cooluli will provide a replacement DC power cord and permanent sticker to cover the AC port.

Cooluli has received at least 19 reports of the minifridges smoking, sparking, burning, melting, overheating or catching fire, resulting in property damages totaling more than \$80,000. One consumer reported a smoke inhalation injury.

Sold Online At: Amazon.com and Cooluli.com from January 2019 through October 2024 for between \$80 and \$120.
